Education

- Bachelor's degree in Law**
Sep 2013 - Jul 2017
I initially studied law but found it wasn't for me, so I transitioned to web development and started learning new technologies.
- GoMyCode**
Aug 2020 - Jan 2021
GoMyCode marked the beginning of my programming journey with a web development course where I mastered HTML, CSS, JavaScript, and React. Just before completing the course, I landed an internship at WeXcute, which commenced my professional front-end career.

Languages

- Arabic
- English

Mahmoud Magdy

Front-end developer

Summary

Front-end developer with 3 years of experience specializing in React.js and Next.js. Passionate about creating efficient, user-friendly web applications, continuously learning, and thriving in collaborative team environments.

Work Experience

Front-end Developer, Nomo, UAE (remote)
January 2022 - July 2024

- Built a Gmail Chrome extension for enhanced email generation, summarization, and a web application for reusable email templates.
- Added task management for easy task creation and updates fully handled by AI.
- Integrated Segment to track user behavior and personalize experiences.
- Automated end-to-end testing with Cypress for reliability.
- Managed state efficiently using Zustand.

Junior Front-end Developer, WeXcute, Egypt
January 2021 - January 2022

- Contributed to the development of responsive components using HTML, CSS, and JavaScript, improving the cross-device user experience.
- Implemented features using the JavaScript library (React) under the guidance of senior developers, gaining hands-on experience with modern web development tools.
